Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner and Applicant discussed whether claim 1 was sufficiently amended to have the case allowed and if not, what if any further changes to the claim may make it allowable. Examiner informed Applicant that based on the submitted amended claims, an updated search was necessary before making a determination of allowability and that if amended claim 1 were found to be allowable Applicant would be notified. If however the new search found new prior art that read on the invention, Examiner would send out a final rejection and Applicant could then proceed with after final practice .
